

DAILY STAFF MEETING

Wednesday, 17 October 1951

Mr. Reber noted that:

- a. He was introducing General Davison to the various personnel people in the IAC Agencies with the hope that some of our personnel problems could be resolved on the highest level "personnel-wise".
- b. He had discussed with [] the timing as to when FCDA should be brought into the paper the DCI was coordinating on "adequate basis for planning for prevention of attack against the U.S.". Mr. [] noted that FCDA has a representative on the NSC Senior Staff and would, in all probability, be "brought in" through this individual.
